DON BUCK PRIMARY SCHOOL

5th March 2012

Burgess Matting,
22 Poutini Street,
Wanganui East 4500

Attention : Russell

Dear Russell,

Your team, led by Tane, worked miracles under our adventure playground. It looks wonderful - Thank you very much.

Lately we have had several contractors working for our little school and its community by providing 'safety at play' features.

Your product, combined with the hardworking team of employees, has displayed excellence.

On the night the team finished laying the matting, our whole community was present. The Board of Trustees members were impressed by the team leadership from Tane and the camaraderie as they worked together for us.

They were patient, as over and over, different children asked question after question. Our school is a low decile school with high decile dreams. Burgess Matting has given us one of those dreams.

Please thank the team on our behalf - we hop they enjoyed the sausages and fizzy drink they accepted from the community.

Kindest Regards,

Jennice Murray
