

30 REASONS WHY YOU SHOULD CHOOSE A BURGESS MATTING SAFETY SYSTEM

1. Design & Reliability

Burgess Matting and Surfacing Ltd (BMS) are the leading manufacturer of this type of safety surfacing in New Zealand.

2. Recycled Product

BMS products are manufactured from 100% recycled rubber.

3. Back Up Service

BMS support what we sell. A representative can be in your area on request.

4. Internet Information

www.burgessmatting.co.nz gives information on our products and services.

5. NZ Made

The BMS playground products are proudly NZ made and are designed for your specific conditions.

6. Five Year Warranty

The BMS Warranty covers faulty materials and workmanship for a period of 5 years.
(Refer to the BMS Warranty Statement)

7. Wetpour System

The unique BMS system is a continuous pour which can mould around existing equipment poles, form mounds or follow contoured surfaces.

8. Permanent or Removable Modular Systems

BMS offer 5 different systems to choose from and can assess and advise the best option for each individual situation.

9. Colour Options

Standard colours options are:

Terracotta Red, Forest Green, Light Brown, Grey and Black.

10. Proven Customer Service

Established in 1951, BMS have been a market leader for many years and can assist with your project requirements.

11. Non-Slip

The Non-Slip qualities will ensure safety and peace of mind at all times – even in wet conditions.

12. Unique Surface Textures

From the BMS Safebond, Flexibond or PermaBond range, we can supply the best surface to suit your requirements.

13. All Weather Surface

Children can play all year round, even after persistent rain, water drains away quickly to maximise outdoor playing time.

14. Cleanliness & Safety

The BMS matting systems ensures there are no dirty clothes from scuffed out muddy areas. Dust, splinters and allergies are virtually eliminated.

15. Virtually Maintenance Free

Minimum maintenance is required doing away with digging over or replacing decomposed materials. Top ups are a thing of the past with a new BMS Matting System. There are no holes or gaps for contaminated material to get lodged into or for weeds to grow in.

16. Safety Standard Compliant

BMS products have been independently tested and are compliant with NZS5828:2004.

Refer to the BMS Compliance Information.

17. Durability

BMS Rubber surfaces outlast many other systems. Life expectancy will exceed your expectations under normal use.

18. Equal Access

The textured surface allows access for wheelchairs, the disabled and tricycles.

19. Designs and Patterns

The Wetpour System allows for integrated colours and patterns of your choice and design.

20. DIY

The BMS modular matting system can be DIY installation. Base preparation for the modular and wetpour systems can be organised by yourselves with installation and base construction details available on request.

21. Cleaning

BMS matting can be swept or blown clean with a leaf blower. Warm water and detergent removes unwanted matter with the aid of a hose or water blaster. If necessary the matting is compatible with moss and weed deterrents.

22. Free Measure and Quote

A BMS Sales Representative is in your area on a regular basis and is available to give free advice and to discuss options to suit your site.

23. 0800 80 8570 / Website

Call free to ask for an onsite appointment or to discuss before and after installation requirements. Alternatively visit our website to request a quote www.burgessmatting.co.nz

24. Installation Teams

BMS Installation Teams are highly trained and are supervised by our Management Team who have over 50 years experience in the rubber matting industry.

25. Value For Money

BMS apply more weight and thickness of material per square metre than any other similar system, ensuring the best \$ value on the market.

26. Theft Deterrent

Due to the one piece system, the product cannot easily be lifted and removed reducing any theft risk.

27. Project Management

Once you have made the decision to install a Burgess Matting Safety System we manage all aspects of installation from start to finish.

28. Terms of Payment

A 50% deposit is required on confirmation of order and the balance is payable on completion. Terms can be negotiated by arrangement.

29. Base Preparation

Base preparation short cuts and bad advice will reduce the life of your playground by many years. BMS representatives can advise on the best solution for good base preparation to ensure the success and longevity of the total system.

30. Overview

The BMS Matting System WORKS! You have the satisfaction of working with a reputable company that has stood the test of time. With over 30 years experience and testimonials available, you can be assured you have chosen the best company and surface to provide your children a safe and enjoyable environment.

Burgess Matting & Surfacing Limited

MATTING SOLUTIONS

Warranty Statement

A Warranty Statement will be issued on completion of the installation and acceptance of final payment.

Burgess Matting & Surfacing Limited will, for a period of five years from the date of completion, offer a warranty against faulty workmanship and materials under normal use of the product.

The company would undertake to repair or replace the fault in question, after consultation with the client, at their discretion. This excludes normal wear and tear, vandalism or improper use of the product.

Safety Compliance Information

A Compliance Certificate will also be issued after final payment for the installation.

BMS have a range of certified systems between 600mm and 2600mm fall heights shown in the Compliance Certificate below is a typical system used for Childcare Centres with a fall height of up to 1800mm.

Please ask our Sales Representative for advice if you require assistance in determining the correct system for your situation.

CUSHION FALL (Bark Chips) vs BURGESS WETPOUR SYSTEM

This comparison is based on the following:
Area: 10m x 10m = 100m²; Period: 10 years

CUSHION FALL

vs

BURGESS WETPOUR SYSTEM

MAINTENANCE

- Rotary Hoeing.
- Raking.
- Re-introducing cushion fall once the existing material has broken down to keep to the required Safety Standards.
- Labour to carry out the above necessities.
- Ongoing vacuuming / sweeping of cushion fall from surrounding areas.

- Aesthetic maintenance, i.e. removal of leaves etc. - A light hosing down or sweeping may be required every now and again.
- In the case of Safebond or Flexibond, once again for aesthetic purposes, once the original colour has worn off it can be painted with acrylic colour paint if desired.

COST COMPARISON

<p>Cushion Fall : 100m²x 300mm depth = 30m³ x \$150/m³ (approx) \$4,500.00</p> <p>TIMBER EDGING : 300mmx50mmx40 LM @\$12.00 per LM \$ 960.00</p> <p>To prepare ground, remove and dispose of turf: \$2,500.00</p> <p>WEEDMAT : @ \$3.00 per m² (approx) x 100m² \$ 300.00</p> <p>Installation / Labour \$4,000.00</p> <p>PLUS: Annual Maintenance, including rotary hoeing, raking, re-introducing the recommended 1/3 volume of cushion fall, labour @ \$1,500.00 per annum (approx) x 10 years. \$15,000.00</p> <p>Total \$27,260.00</p>	<p>BASE PREPARATION – Clean Site :</p> <p>Sub-contractor (including material) Normally between \$ 28-\$40 (approx) @ average of \$34.00 per m² (approx) x 100m² \$3,400.00</p> <p>BURGESS WETPOUR SAFETY SYSTEM : @ \$125.00 per m² (100m² or more) x 100m² \$12,500.00</p> <p>INSTALLATION : Set price per m² would be determined after site visit, but normally between \$10 - \$20.00 per m² - Average = \$15.00 per m² x 100m² \$1,500.00</p> <p>Annual Maintenance \$250 x 10yrs \$2,500.00</p> <p>Total \$19,900.00</p>
---	---

Wetpour has a saving of \$7360.00 over a 10 year period plus the benefits of a low maintenance, aesthetically pleasing, and hygienic, safe surface all year round.

NB: These prices EXCLUDE GST. Pricing based on Auckland Contractor rates.
Cushion Fall prices as at 2009, based on lowest rates.
