

NUWAY PLAIN GUARD ENTRANCE MATTING

Specifications

- Recycled aluminium and rubber strip construction
- 3 variations of mat construction
- 1 closed – no gaps in finished surface
- 2 semi open – 5mm gap in the rubber strip allows small stones and water to drop through matting
- 3 open – 10mm gap in the rubber strip allows small stones and water to drop through the matting

Features		
Non Slip	Removable for easy clean	Durable
Quick Drying	Designed to remove dirt and small stones	
Supplied with aluminium L angle recess or surface mount ramp frames		
The only reversible entry mat system available on the NZ market		
Designed for a recess or well installation or can be surface mounted if required		
Designed to provide a total mat system in conjunction with other Nuway products usually placed externally in entrance ways as a pre clean mat to remove the worst of the dirt and stones allowing the internal mat to remove any remaining dirt		
Proudly NZ made by Burgess Matting (Established 1951)
