

# **Nuway Tuftiguard Entrance Matting**

# **Specifications**

 Recycled aluminium and buffed rubber strip construction with 3 variations of mat construction available:

1. Closed No gaps in finished surface

2. Semi open 5mm gap in the rubber strip which allows small stones and

water to drop through the matting

3. Open 10mm gap in the rubber strip which allows small stones and

water to drop through the matting

Features			
Durable	Non Slip	Quick Drying	
Removable for Easy Clean			
Designed to remove dirt and small stones			
The only reversible entry mat system available on the NZ Market			
Supplied with aluminium L angle recess or surface mount ramp frames			
Designed for a recess or well insulation but can be surface mounted if required			
Proudly NZ made by Burgess Matting (Established 1951)			

#### Maintenance:

Vacuum daily to remove dust and dirt. Periodically remove the mat from the matwell and clean with warm water and mild detergent. Rinse thoroughly afterwards. When replacing the Nuway mat, turn it over to wear equally as this will double the life of the mat. Remove all dirt and debris from the matwell and replace the Nuway mat when dry. For further cleaning information please refer to the manufacturer.
