Rebond Gym Tiles

We use 100% recycled rubber that is powderised, moulded and compressed to form high quality New Zealand made rubber gym tiles. The tile surface is smooth, colourfast and factory finished in natural matt black or with a colour fleck introduced. A larger fibre backing improves the comfort of the tile, while absorbing impact and reducing the transfer of sound and vibration.

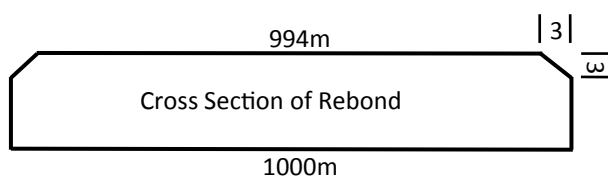

The rubber tiles can be customised and manufactured to suit onsite requirements.

UV resistant means the tiles are suitable for indoor and outdoor use.

- ▶ **RB1524** is our standard gym tile at 1000 x 1000 x 15mm. This tile can also be used for domestic, retail and office situations.
- ▶ **RB2024** is our impact tile which is 1000 x 1000 x 20mm which is ideal for aerobics flooring with great impact and sound absorbent qualities.
- ▶ **RB2524** tiles are suitable for weight lifting flooring at 1000 x 1000 x 25mm thick.

3 Year guarantee against faulty materials or workmanship
